...Abstract: We propose chat-pointer, a telepresence supporting and collaborative feature that augments telepointer with chat- style conferencing capabilities. Chat-pointer is built on top of e- coBrowse , an extensible Web co-navigation framework that allows embedding new functionality in arbitrary Web pages...

Online programming can be a library oasis on the Internet : with the help of conferencing software like iVocalize, the Internet will no longer be a desert but a rich bazaar of programs and communities brought...

TEXT:

The Internet is many things to many people. Some see the Internet as the Wild West, a yawning wilderness waiting to be tamed and cultivated. For companies like eBay, the Internet is a steady, transaction-based revenue stream. For the dot-com companies of the 1990s that blossomed like desert flowers after a downpour, the Internet was perceived as a California gold rush. If you staked a claim and hit a...

In terms of online library programming for patrons, the Internet currently is a desert. But the Mid-Illinois Talking Book Center, the Illinois State Library...

...org), is an outpost of progress, a library oasis amid the shifting sands of the Internet .

Our Software Discovery and How We Make It Work

We discovered a wonderful, versatile technology...

...Talking Communities (<http://www.talkingcommunities.com>) called iVocalize, which at a very low cost provides Internet conferencing and programming software. When we ventured into this desert we were looking for accessible...

...other types of presentations. During reference interactions and online instructional sessions we are able to cobrowse into proprietary databases. We have used the software successfully for small and large meetings, training...

...on how to use library resources, an enhanced virtual reference service, book discussion groups, interview- style programming, and more. It also is easy to record the audio and text chat in...

...desert or wasteland. Because there is little live programming taking place in libraries on the Internet , OPAL is a truly virtual oasis, a place where patrons can participate in book discussions...

...Libraries create programs for their primary clientele, not for nomads wandering the deserts of the Internet . Nomads don't really belong to any community. Library management teams, boards of trustees, and...

...a policy would doom your programs with low attendance, lethargy, and perhaps, ultimately, failure. The Internet is about energy--computing, networking, and human energy. Online programming efforts should tap into that...

...the fact. We find that the events archive is much appreciated and well-used.

The Internet , like the desert, is an extreme, harsh environment. An oasis clings tenuously in sharp contrast...

...longer just local, or even statewide, but international. In terms of online library programming, the Internet will no longer be a desert, but a rich, rewarding bazaar of programs and communities...

TEXT:

...Synetry 3.5, the company's suite of solutions for live customer service over the Internet . Synetry 3.5 contains new functionality designed to increase the efficiency and responsiveness of a contact center while helping improve the organization's insight into traffic patterns , queue status and individual agent performance. Synetry 3.5 also includes agent and contact center...designed to expand the range of information sources that can be securely shared over the Internet without compromising the integrity of desktop access required by application sharing solutions. It helps provide...documents, including PowerPoint, Excel and Word, to a secure repository for online collaboration using Synetry Cobrowse or Synetry Chat+, Security features were added to help ensure that converted documents can only be viewed by individuals with permission and only within the bounds of a Synetry Cobrowse session.
